

ABF Learning Center/Academy K-12

Launches General Education High School Diploma Program (Grades 9-12)

Since 2007, ABF Learning Center/Academy K-12 has serviced South Florida's children, youth, and their families providing a comprehensive suite of educational programs. Just as the diverse needs of wellness continues to grow ABF Learning Academy is proud to launch its **General High School Diploma Programs** accredited by the Department of Education.

ABF Learning Center/Academy K-12 **General High School Diploma Program** is tailor-made to suit the needs of students looking to complete and graduate high school. This pathway is recommended for students that plan to attend college, join the military, or enter the workforce after high school and offers multiple customized solutions:

Senior Graduation Program:

This program is for high-school **SENIORS** who have not completed certain public-school graduation requirements. Students are able to complete and/or retake failed or incomplete courses in order to make up academic credits to advance or graduate school. This option helps students who may not be able to pass public-school testing requirements or who may be looking for an alternative option to typical public-school setting.

- **Students are not required to pass any state standardized testing or end of course exams.**
- **Students can either sign up for a blended learning or fully virtual program with access to our teachers, counselors, administrators, and staff.**

High School Diploma Program (Full Time Student):

Students (**Grades 9-12**) can earn a full-time accredited high-school diploma with the flexibility to learn at their own pace. This option gives students the ability to customize courses with the assistance of our admission's specialist and it gives students the flexibility to work either online or in a blended learning environment with access to support from our staff. This diploma is accredited by the Department of Education and it fulfills the requirement for students looking to further their education in college, the military, or seeking job placement.

- **Students are not required to pass any state standardized testing or end of course exams.**
- **Students can sign up for a blended or fully virtual program with access to our teachers, counselors, administrators, and staff.**

High School Credit Recovery Options:

ABF Learning Center/Academy K-12 High School Credit Recovery options help students expedite the process of completing required, failed, or missing courses. Select from full list of Department of Education approved courses to satisfy required graduation requirements. This process helps pupils get back on track to graduate. Learners are able to complete and/or retake any failed or incomplete courses to make up academic credits.

Students who are trying to retake courses are set up in our intuitive and user-friendly online interface. Within each course, users are provided with “lessons” that encompass all the resources to teach, convey, reinforce, and help learn and understand concepts. These courses contain all the content and support students need to master the course material, creating the feeling of a one-on-one learning experience.

Speak with our staff to help devise a plan to get your diploma today!
